

# What's new in AHFS Drug Information April update 2008

**AHFS Drug Information is continually undergoing re-validation and revision. Each month, new and revised sections are published on MedicinesComplete. This is a list of the changes made since the last update.**

This update contains 15 revised monographs and one new monograph. Two monographs were revised due to FDA MedWatch notices. The monograph for raltegravir was expanded from a firstRelease to an Overview.
