

What's new in AHFS Drug Information August update 2009

AHFS Drug Information is continually undergoing re-validation and revision. Each month, new and revised sections are published on MedicinesComplete. This is a list of the changes made since the last update.

This update contains 36 revised monographs and 5 new monographs. MedWatch alerts from July are included (Varenicline, Propoxyphene, Bupropion, Insulin glargine, Sirolimus, Mycophenolate, Cyclosporine, Colchicine). Also included are revisions due to updated therapeutic guidelines or labeling (Sulfasalazine, Lincomycin, Pyrantel, Clofazimine, Argatroban, Tetracaine, Bisacodyl, Mesalamine, EDTA, Tetracaine, Lidocaine). Terbinafine was expanded from a SumMon to an Overview monograph (Cautions and Drug Interactions sections added; updated labeling, guidelines, and additional references from primary literature included).
