

What's new in The Merck Index

April 2009 update

The Merck Index is continually undergoing re-validation and revision. This is a list of the changes made to MedicinesComplete since the last update.

This update contains 50 new monographs and >500 revised monographs. Additionally, DOIs and PubMed links have been added to many references.

New monographs

Abiraterone	Rivaroxaban
Allyltrimethylsilane	Romiplostim
Axitinib	Salicylaldehyde Phenylhydrazone
Belotecan	Stearidonic Acid
Bosutinib	Tarenflurbil
Botryococcene	Telaprevir
Bromodimethylborane	Tritosulfuron
Bromodimethylsulfonium Bromide	Ulipristal Acetate
1,4-Butanediol	Vaska's Compound
Carisbamate	Vicriviroc
Catecholborane	Viscotoxin
<i>N</i> -Chlorosaccharin	
Chlorotrimethylsilane	
Denosumab	
Diethyl Azodicarboxylate	
Diisopropyl Azodicarboxylate	
Diketene	
<i>O</i> -(Diphenylphosphinyl)hydroxylamine	
Diphenylphosphoryl Azide	
Ecallantide	
EDC	
Eltrombopag	
Eribulin	
Ethoxymethylfurfural	
2,5-Furandicarboxaldehyde	
Ganoderic Acids	
Halichondrins	
Histatins	
<i>N</i> -Hydroxysuccinimide	
Isofagomine	
Lasofoxifene	
Lisdexamfetamine	
Merocyanine 540	
2-Methyltetrahydrofuran	
Motesanib	
4-Nitrobenzenesulfonamide	
Pentamethylcyclopentadienyliridium(III) Dichloride Dimer	
Propylphosphonic Anhydride	
Pyroxsulam
