

# What's new in The Merck Index

## September 2008 update

The Merck Index is continually undergoing re-validation and revision. This is a list of the changes made to MedicinesComplete since the last update.

This update contains 50 new monographs focused on human medicines, reagents, plants, and natural products; and >1000 revised monographs that include 430 new structures as well as significant updates to Therapeutic Category Veterinary indications and chemical handling statements.

### New monographs

Agatolimod	Plerixafor
Allyltributylstannane	Regadenoson
Aminoethoxyvinylglycine	Retigabine
Apixaban	Rilpivirine
Carnosic Acid	Rosmarinic Acid
Carnosol	Rotigotine
Cinnamyl Acetate	SPADNS
$\alpha$ -Cresolphthalein Complexone	Theanine
Cyclopentyl Methyl Ether	Triphenylbismuth
Cyhalofop-butyl	Tyrosol
$\delta$ -Decalactone	Xylenol Orange
2',7'-Dichlorofluorescein	Zincon
Dimethylsulfoxonium Methylide	
Dimoxystrobin	
Dinitrogen Tetroxide	
3,6-Dioxaoctane-1,8-dithiol	
$\delta$ -Dodecalactone	
Enzastaurin	
Garcinia	
Hydroxycitric Acid	
Hydroxytyrosol	
Icatibant	
Iodobenzene dichloride	
Laquinimod	
Magnalium	
Mercury Fulminate	
Metaflumizone	
1-Methylcyclopropene	
Methyl 2-Furoate	
Methylthymol Blue	
Milk Thistle	
Mistletoe	
Mistletoe Lectins	
Nootkatone	
Norbornadiene	
PAN	
PAR	
Pirfenidone
